

Jeanine Killinger

Age: 29

Location: Little Rock AR

Occupation: Senior Safety Manager of BioGene, and single mother of 2 month old baby girl

Hobbies: Biking, nature watching, watching National Geographic

Goals:

To maintain a balanced lifestyle of work and fun while staying healthy and active

To enjoy watching her 2 month old grow up

Frustrations:

Busy lifestyle creates unwanted stress

Too many trails but not enough time

Motivations:

Providing a stable life for her child

Finding time to explore nature

Bio: Jeanine is a hard-working single mother who enjoys outdoor trails, and anything nature related. She has a curiosity for the different types of trees and plants that she comes across. It can be difficult to make time for biking as her schedule is terribly busy.

Bryan Rockwell

Age: 24

Location: New York City NY

Occupation: Account Manager at FidelityQuirks

Hobbies: Collecting Plants, Reading, Painting

Goals:

Getting into a field where he can learn more about plant life

Motivations:

Stopping Global Warming

Improving the community in any way possible

Bio:

Bryan is a go getter who loves anything and everything about plants and flowers. He spends his free time walking through parks and enjoying nature.

Jacqueline Monohan

Age : 26

Location : Fort Worth TX

Occupation : Florist at Floressence

Hobbies: Substitute Science teacher on the side, playing piano and violin, creating flower origami

Goals:

Opening up her own Floral shop

Balance her work and hobbies schedules

Bio:

Jacqueline loves everything about flowers. She enjoys studying how to keep them as healthy as possible. On her free time, she plays piano and violin in front of her plants as she believes they all have feelings and can appreciate music.
